*Please refer to your 2025 Plan Summary details to see if your plan has Tier 1/Tier 2 coverage. Product availability may vary by location and plan type and is subject to change. All insurance policies and health benefit plans contain exclusions and limitations. For costs and details of coverage, review your plan documents or contact an EMI Health representative.

What are Elite Providers?

It's a designation we give to doctors in your network who have proven time and again that they provide a higher standard of clinical quality with the best patient outcomes.

Finding the right doctor matters and we've done the work for you.

Top-Rated Care

We look at multiple data points, including doctor qualifications, patient outcomes, and other key metrics, to see how all our network doctors perform. Then, we assign this special designation to only the top 20-30% within their specialty.

Affordable Visits

Enjoy lower copays when you visit Elite Providers. We are prioritizing your health and well-being without compromising on quality care. Discounted Tier 1 copays are generally available for Primary Care, Secondary Care, Psychology, and Rehabilitation office visits.

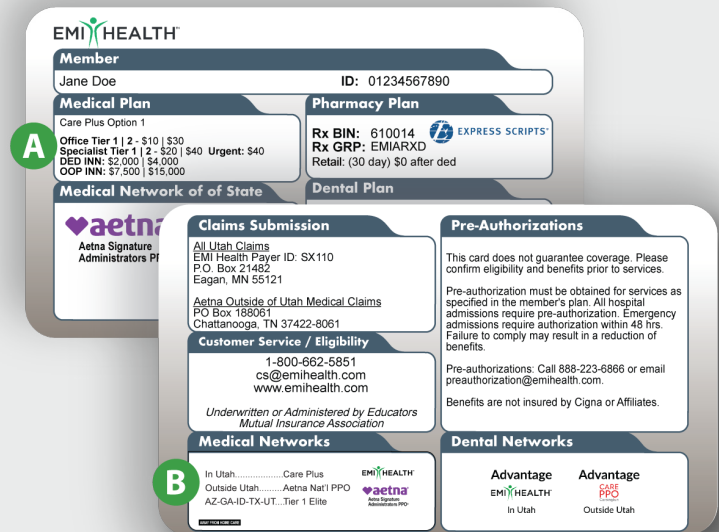

Trusted & Verified

We consistently monitor and evaluate our providers' performance to ensure they meet our high standards of care. Our Elite Providers list is updated at the beginning of each calendar year, and we continue to review data quarterly to identify and include additional providers who qualify. This ongoing process reflects our commitment to offering you access to exceptional care.
